ECONOMY LIST

ALLEGAN SEED AND
NURSERY CO.

Seeds — Nursery Stock and
Flowers

Prices Reduced One Third

We grow the best Strawberry Plants grown in Michigan. Let us prove it. Just note the sensational wholesale prices to our retail trade. Read the prices on Lawn Grass Seed, Evergreens, Shrubs, Berry and Shade Trees. See the pictures and read the descriptions in the other catalogs—**BUT SEE OUR PRICES.** Remember — our Victory Plants must succeed. Send your orders to us.

What is home without a Berry Patch — and some Shrubbery? Why it's bleak, blank, blaring and bare.

Send your orders in to us today.

J. G. Prestage & Sons
Allegan, Michigan

TO OUR CUSTOMERS

We are publishing a small catalogue and price list this season and cutting the prices on most everything so every one can buy at a bargain, but we are carefully giving the size and age of shrubs and all trees and this point is carefully avoided by many retail catalogues or else the public is misled by descriptions as to age and size of tree bought.

We have been at the nursery business practically all of our lives and give you the advantage of this experience

Our plants and trees, vines, evergreens, shrubs and perennials are called "Victory Plants" because they are sure to grow and give success and satisfaction to our customers.

Our terms are cash with order. Sometimes we are glad and willing to make other terms to help our customers.

Express is the general way of shipping nursery stock and plants. The express companies take lots of pains to care for and deliver nursery stock in good condition. Early heavy orders go by freight.

Parcel Post is popular for smaller orders and many times customers on Rural Routes would rather pay postal charges and have stock come right to the door — especially in a busy time.

The customer pays all transportation charges whether by express, mail, or freight. Except on Seeds and Washington Strawberry plants. It is the only fair and just way to all customers. Yes, some firms are offering to prepay transportation charges of all kinds. It is a very unfair practice as the customer at a considerable distance gets his stock for considerable less money because every mile of distance costs for transportation no matter where it is — and the fact cannot be dodged. The customer has it to pay in the end no matter how it is figured. Many nurseries try paying charges one or two seasons then quit it. A fair and square deal is the only practice that can last.

Our motto and guarantee is: Every customer of Victory Plants must be a satisfied customer this year.

Remember, this is our pledge to you and to ourselves. We want your order and will give as much or more for your dollar as any nursery.

FLY-BY-NIGHTS

THERE ISN'T ANYTHING BUT WHAT SOME FELLOW OR CONCERN CAN SEND IT OUT A LITTLE CHEAPER, AND A LITTLE POORER. OUR PRICES ARE QUALITY PRICES. LOW ENOUGH IN COST TO BE ECONOMICAL, BUT HIGH ENOUGH TO MAKE QUALITY WORTH WHILE.

FLY-BY-NIGHTS

Or these people that are "In today and out tomorrow—or on again-off again." These are the fellows that think they see someone else making money, so they plant out patches of strawberries mostly, and start selling plants. They are, "In today, out tomorrow." Sell cheap because they have to. Some of them, of course, are alright, but the average buyer of a few plants for his garden or for starting a berry field had better let the plants alone, even if they would give you the plants. They get tired if plants don't sell well and are "Out tomorrow."

We have been at the business all our lives and are at it to stay. You will find us here next year, or in years to come, ready to help you and keep our customers satisfied. Our advice is: "Beware of the fellow that just jumps in ready to jump out." Yes, watch out for these Wise

Finegans.

TAKES PATIENCE

During the busy time we work almost night and day; on four or five of us falls a tremendous lot of work and responsibility. During the rush we are generally some overworked, so if at that time you should write and not get a reply so promptly, remember we are on the job doing our best, and will get to you as soon as possible. Too much annbyance at that time sometimes only makes it harder for us.

STRAWBERRY PLANTS

We believe we grow the best strawberry plants grown in Michigan. We grow them well, clean them well and pack them so they carry well, and always please.

CHAMPION EVERBEARING

For the past few years we have been growing this grand berry. It has the best flavor of any berry grown. It requires rich soil, but is a heavy and constant bearer, and a good plant maker. If I couldn't have but one everbearer this would be it. See table for prices.

MASTODON EVERBEARING

The Original Strain

The Masterpiece of all Strawberries

This new everbearer is of an entirely different type from the older creations that were placed on the market some years earlier. The plant is larger, making a heavier, more rank growth of foliage, dense enough to protect the late Autumn blooms from frost, and the Summer crop from the hot rays of the sun.

The flavor, color and quality of the fruit are excellent, and the size of the berries surpasses that of any other everbearer produced.

As a general rule, everbearers require a very fertile soil to give really satisfactory results, but in this respect also, Mastodon is different, for a satisfactory fruit crop can be harvested on soil of only average quality.

There is only one true strain of Mastodon—that of the originator. We have it: every plant bears our guarantee of genuineness and satisfaction. Do not be misled into paying fancy prices for the variety, but let us reserve yours now at one of the lowest prices available for true-to-name stock.

As a June berry it has no superior. It loads itself with large berries that are the equal of nearly all the June crop for quality, and will outyield the most of them. The berries are even larger in June than in the fall. \$600 per acre has been sold from the Mastodon in June. You can safely plant it for either a spring or fall crop. Whatever you do, set heavily of Mastodon.

Brandywine: A vigorous perfect blooming plant; tall fruit stalks; broad; heavy, dark green foliage. Plants productive, having four and five stalks heavily loaded with large to very large berries. Medium red, somewhat like Gandy, large yellow seeds on surface. Flesh red clear through, firm, somewhat acid, but with sprightly flavor; ripens medium to quite late. Does best on heavy loam.

Gandy: A profitable late variety greatly resembling the popular Aroma. It is one of the old standard varieties upon which you can depend. The berries are handsome, very large, well colored, uniform in shape, firm and a good shipper. Season very late. Plants are healthy, hardy and make a thrifty growth. Does best on heavy soils.

Senator Dunlop (S.) "Hats off to the Dunlop." It is the best berry grown. Medium early to mid-season; best quality; heavy bearer; good plant maker; stands drouth and frost abuse. It is the kind for everyone to set.

Buster (P.) This comparatively new berry is a cross of Bubach and Sharples. You all know Bubach and probably have often thought what a grand variety it would be if its defects were corrected. Sharpless is old, but none the less one of the best. So the Buster seems to be Bubach with Sharpless correcting its faults, and, as is often the case, the offspring has much improvement of both parents. It is pistillate, like Bubach, which it resembles. It has one of the most healthful foliage among all the strawberries. It will stand more cold weather and hard treatment than any berry grown mid-season. A heavy yielder of Big berries.

Red Gold. The Wonderful New Spring Variety. Red Gold is a revelation in the spring varieties. The berries are simply enormous in size. Color is shining red and they are full of delicious sweetness with that wild Strawberry flavor. Does not contain the acid found in the common kinds. Eat all you like. Meaty, tender flesh, not pithy. Requires less sugar to make preserves. Many use only half the ordinary amount. Stems are very strong and stout, holding the berries out of the dirt. Stems are loaded with these mammoth berries. Red Gold plants make runners very freely. Root system goes down 12 to 15 inches. Fruiting season thirty days.

Harvest King This wonderful new June-bearing Strawberry was originated in Northern Michigan, where the summers are short and late spring frosts are common, and is one of the hardiest Strawberries known. Deep red color, delicious flavor, large size, and is superior as a canning berry, retaining its original flavor and dark red color even after cooking. Because of the many good features of Harvest King it is displacing some of the older varieties, both for market and home garden. Perfect flowering, and can be planted alone, late.

New Blakemore Strawberry, (Perfect) Extra early variety. The New Blakemore Strawberry (U. S. D. A. No. 659) was originated from a cross of the Missionary and Premier in 1923 by the United States Department of Agriculture. It was named in honor of Marcus Blakemore, president of the National Preservers Association. The berries are very firm, bright red in color, tough skin, solid center with excellent flavor. It produces runners in abundance and fruits about two weeks earlier than the Premier. Has lighter Pectin content than most varieties and is slightly blunted conical in shape with broad shoulders and slim neck.

The plants should be set about 24 in. apart if set closer they may get too thick. This new strawberry is recommended by the United States Agricultural Department and should be tried out.

Cooper (S.) By many growers this variety has taken the place of the old Uncle Jim. Claimed to be better in color flavor, shape, size and productiveness. Plants are healthy and vigorous, strong fruit, stems hold berries well off the ground. Berries are large, light in color, but of excellent quality. Fine for local markets because its fine shape, size and excellent quality sell it.

Glen Mary (P. & S.). An old midseason to late variety of much renown, Healthy plants. Berries are dark

red, firm, and of best quality. Always a demand for it. Likes rich soil.

Surplus Plants. Genuine bargains for you. If you are not too particular and want a good berry, we can save you some money on our SURPLUS or CUT PRICE plants. Different kinds of berries do not sell alike every year.—so it is hard to tell just how many to plant in the Nursery each year for the next year's requirements. And every day we have to clear out our packing house. We do this that plants can be kept fresh and in growing condition. We cannot always dig the exact amounts of each variety required for orders each day. So if you want BARGAINS in good berries order our CUT PRICE or SURPLUS PLANTS. We most always are able to label exactly true to name these plants. Many times you get the best and newest varieties, but we will not fill orders for named kinds at prices given for SURPLUS PLANTS. But in any case we guarantee that you get your money's worth in value.

Warfield (P.) The most highly prized of all the varieties of strawberry for canning and preserving purposes. It, like Dunlop, is standard the world over. Dark red, heavy yielder. Medium early.

Gibson (S.) One of the most profitable sorts for both home garden and marketing, plants very strong growers, berries extra large, choice flavor, dark glossy red. Medium.

Bubach (P.) Fruit large and handsome, roundish to conical, bright scarlet in color, moderately firm, of good quality; plant is a strong grower, with large, healthy, dark green foliage and very productive. Requires a rich soil, inclined to be heavy; very desirable for home use or near market; an old stand-by and is always in demand because of its size, color, productiveness and fine appearance; makes the required number of plants for a desirable row.

Chesapeake (S.) Chesapeake is about as well known at this time as any late berry on the market, and needs no description. It is one of our highest quality berries for either home use or market. It a very profitable variety when the soil suits it. Does not make very many plants on ordinary soil. Needs good rich garden soil that does not dry out quickly. Large, dark red.

Wm. Belt (S.) Medium late. Wm. Belt is a very strong and thrifty grower. It is grown extensively in many localities but seems best adapted to the heavier soils. The first berries to ripen are usually irregular in shape, but thereafter are smooth, large, uniform and very attractive; quality very good. The flavor is excellent and we consider Wm. Belt one of the very best for preserving.

TREE STRAWBERRY

A novelty of more or less worth, but highly praised by many. One advertiser describes it thus, "A lovely dark green shrub with bright scarlet berries of excellent quality. Really strawberries on a bush—by some called Strawberry-raspberry. Easy to grow on any soil. Good bearer. Should have a corner in the garden. Berries fine for all purposes; jams, jellies and serving fresh.

ASPARAGUS

Webb's Improved Palmetto... Until recently we believed that Conover's Colossal was the best sort grown but we are forced to concede that Palmetto is earlier, hardier and a much better yielder. It is more even and regular in its growth. Eventually it will supersede all other varieties as it has been tested from one end of our country

to the other and it has proven entirely successful everywhere. We have both yearling and two-year-old, plants raised on our own ground, and hope we will be able to fill your order with our fine asparagus.

Mary Washington (Rust-Proof) The Department of Agriculture at Washington, working in conjunction with growers and colleges, has through breeding and research produced a rust-resistant asparagus that is the equal in productiveness, size and quality to any variety known. We have grown these plants from a quantity of seed from one supply is limited to less than a hundred thousand, but I am making a very reasonable price. So much has been written in praise of it that I believe the above is enough here.

Gardeners cannot afford to be without Mary Washington Rust-proof Asparagus. It brings the price.

Asparagus Seed. You can grow your own plants if you wish. A pound of seed will grow plants enough to set an acre. Our price is very reasonable.

Mary Washington 5 lb., \$4.00; 1 lb., 75; $\frac{1}{2}$ lb., 50c $\frac{1}{4}$ lb., 35c.

Palmetto 5 lb., \$2.00; 1 lb., 50c $\frac{1}{2}$ lb., 25c $\frac{1}{4}$ lb., 15c.

RHUBARB, OR PIEPLANT

For a spring tonic Pieplant is unexcelled. It is ready to use as early or earlier than asparagus, and is splendid for sauce, pies and medicine. It is a very profitable market garden crop, easily grown. A dozen plants are enough for the ordinary family. It is easy to grow and is prolific. Special prices if a large planting is to be made.

SAGE—HOLT'S MAMMOTH

A very useful and healthful condiment. From one to three plants will supply the ordinary family with a good supply of dried sage leaves. A hundred good plants well cared for are more profitable for market than five acres of corn.

LARGE IMPROVED HORSERADISH

This popular condiment is very easily grown in the home garden or on a larger scale for market. It sells readily in all large cities. The yearly wholesale price in Chicago or Detroit, or any other large city for the fresh washed roots make it more profitable to grow, and more certain than potatoes. Very easily grown.

SEED POTATOES

This is the year for you to change your seed.

Irish Cobbler The best standard white, early potato; very productive; round and smooth. Price \$1.75 per bu.; $\frac{1}{2}$ bu., \$1.00; 1 pk. 50c. Small \$1 bu., $\frac{1}{2}$ bu., 50c.

Hundred Fold or Improved Rural The most popular late white potato; round, smooth, even size heavy yielder of good keeping, good quality tubers. None better. Sacked free. Price per bu., \$1.25; $\frac{1}{2}$ bu., 75c; 1 pk., 40c. Small 75c; bu; $\frac{1}{2}$ bu., 50.

Early Ohio These are a pink potato of medium size and good quality, extra early. By some they are called a six-week's potato—that is, six weeks after they are set, potatoes are ready for use. One of the best, Price \$2.00 per bu., $\frac{1}{2}$ bu., \$1. 1 pk. 60c.

Petoskey Russet Rural This is the new great potato of the great northern Michigan potato region. It is sound, smooth, clean, a vigorous grower and a heavy yielder of tubers of the highest quality. They are a quick growing, main-crop potato. Three-fourths of the Michigan potato crop are of this variety. It gains in favor everywhere. The

best shipping potato known. Price \$1.25 per bu., $\frac{1}{2}$ bu., 85c; 1 pk. 40c. Small. bu., \$1. $\frac{1}{2}$ bu., 60c.

The four varieties of potatoes we offer are grown from certified seed and this should be an inducement for you to get something good.

Prices of potatoes are subject to change. Write for prices on 5 and 10 bu. lots.

OUR SEED DEPARTMENT OF FRESH SEEDS.

We prepay all seeds quoted— Post paid

We have several years been growing many varieties of seeds-- This came about in a very natural way--as we have always raised vegetables extensively for market--, as vegetables went well with our loads of fruit and berries.

Thus we have raised largely our own seeds, and many for wholesale. And having a good supply on hand we have FINALLY conculed to add a RETAIL SEED DEPARTMENT---WE KNOW SEEDS---and from experience we should know what Farmers, Gardeners, and Fruit Growers want.

Our success in offering seeds the past two years has been very pleasing in every way, as we have sold many times more than we expected, AND we look forward to a rapidly growing demand for our seeds.

SEEDS BY PACKETS IS A PROFITABLE METHOD FOR THE SEEDSMAN, BUT A POOR SYSTEM FOR THE PURCHASER. A few items like flowers, or lettuce, etc. may be all right by packets, but the average garden should have more than one sowing of each of the leading vegetables, and if the seeds are bought by the $\frac{1}{2}$ ounce, or quarter pound, you get enough seeds at one purchase for the season. If bought by uncertain sized packets you have to buy again, and again, and it is an expensive and short quantity process--profitable for the Seedsmen, only. Always buy by the $\frac{1}{2}$ ounce, two ounces, quarter pound etc. and you get MORE SEEDS FOR LESS MONEY.

You will find OUR SEEDS ARE FRESH, NEW, AND OF HIGH GERMINATION. We grow and handle the BEST BY TEST. We do not offer a long list of common varieties as we know by experience that the average gardener is better off with a few kinds of the best only.

OUR SEEDS ARE NOT THE CHEAPEST, BUT THE BEST YOUR MONEY CAN BUY.

All seeds in quantities and prices quoted are prepaid by us.

NORTHERN GROWN SEEDS BEANS

Giant Stringless Green Pod Best stringless, green wax.

Wardwells Kidney Wax Yellow, stringless Flat.

Pencil Pod Wax Yellow, stringless, round.

Prolific Garden Wax. Yellow, stringless, round.

Kentucky Wonder. The tender fleshy pods make it one of the best as snap sort and good shelled, unless you object to the brown beans. The pods are tender and brittle and it is claimed by some to be the best flavored bean in existence. The pods hang in clusters. Early and follows the bush varieties in season. A pole bean but successfully grown without polling.

Prices of all beans $\frac{1}{2}$ lb., 15c; 1 lb. 25c; 2 lbs. 45c; 10 lbs. \$2.

FORDHOOK BUSH LIMA-BEANS - The highest in quality and the most prolific of all Bush Lima Beans. Very large. Real Early. PRICE— $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 5 lbs. \$1.50; 10 lbs. or more at 20c lb.

HENDERSON'S BUSH LIMA—Called the LIMA BUT-

TER-BEAN—A small bean, medium sized bush that just loads itself with pods that are well filled with beans. Beans are white and of good quality. Popular with everyone that cans Limas. The earliest of all. $\frac{1}{4}$ lb. 10c, $\frac{1}{2}$ lb. 15c; 1 lb. 25c; 2 lbs. 40c; 5 lbs. 90c.

Red Kidney. (Dark). A famous bean for productivity and quality. In great demand as a garden or field bean.

Red Kidney Light. Like above only lighter in color. Both kinds are liked for all purposes.

Marrowfat. A very large white bean. A field bean noted as a heavy yielder and for its excellent eating qualities.

Prices of above three varieties: $\frac{1}{2}$ lb. 15c; 1 lb. 25c; 2 lbs 40.; 5 lbs. 90c; 10 lbs. \$1.75; 1 pk. by express, \$1.50; bushel by express, \$4.00.

Navy Beans—A small, white Garden Field Bean famous as BOSTON BAKED BEANS. The best bean as a dry ripe bean for winters use. Lb. 15c; 2 lbs. 25c; 5 lbs. 55c; 10 lbs. \$1; 50 lbs. \$3.

SUGAR BEET.- German Prize. A very sweet beet. Good for any use. 1 oz. 10c, $\frac{1}{4}$ lb. 20c; 1 lb. 50c; 5 lbs. \$2.25.

MANGEL WURZELS. GOLDEN TANKARD— The best for feeding stock. 1 oz. 10c, $\frac{1}{4}$ lb. 25c, 1 lb. 55c, 5 lbs. \$2.50.

ENDIVE—THE MARKET BROAD LEAF is the best variety. $\frac{1}{2}$ ounce 8c, 1 oz. 12c, $\frac{1}{4}$ lb. 25c, 1 lb. 90c.

PARSLEY— Champion Moss Curled- The best variety. 1 oz. 12c, $\frac{1}{4}$ lb. 25c, 1 lb. 80c.

SPINACH—PRIDE OF DENMARK. New. Large, early. Best all round. 1 oz. 10c, $\frac{1}{4}$ lb. 20c, 1 lb. 40c, 2 lbs. 90c.

SWEET CORN

Early Sunshine. Here is a real quality in an early sweet corn. One of the best in the golden-yellow class. A larger ear and earlier than the Golden Bantam. Very tender and sweet and stands longer without getting hard than other varieties. Twelve rowed. You will be surprised at the size of so early a corn.

Early Surprise Earliest of all. White, tender.

Golden Bantam Early, delicious and prolific.

Early Evergreen White, early, fine.

Golden Evergreen Medium season, very, fine, yellow.

Stowell's Evergreen Late, large, delicious.

Prices of all Sweet Corn, $\frac{1}{2}$ lb. 15c; 1 lb. 26c; 2 lbs. 50c 10 lbs. \$2.00.

SQUASH SEEDS

Improved Hubbard Old standby.

$\frac{1}{4}$ b. 30c; $\frac{1}{2}$ lb. 55c; 1 lb. \$1.00.

Warty Hubbard, Golden or Red Hubbard, Banana, Table Queen, Giant Crookneck Summer.

The six varieties above all same price.

“Kitchenette” the new “Hubbardette” squash. This is a new dwarf Hubbard averaging about five pounds in weight. It is better and more serviceable than any other. Ounce, 20c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 95c; 1 lb. \$1.60.

PUMPKINS

Japanese Pie. Sugar Pumpkin. Old fashioned field pumpkin.

Ounce, 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.20.

Winter Luxury. A sweet pumpkin of excellent quality. It's wonderful keeping ability has given it its name. Said to be the best pie pumpkin. Oval in shape and of even medium size. A wonderful producer. Finely netted and of

a yellowish russet. Thick flesh, best quality, crops quickly. Price: 1 oz. 12c; $\frac{1}{4}$ lb. 30c; 1 lb. 90c.

GARDEN BEETS

Detroit Dark Red The very best. All purpose.

Early Eclipse Early, quick, grower, good.

Ounce, 15c; $\frac{1}{4}$ lb. 35c; 1 lb. 90c; 2 lbs. \$1.60; 5 lbs. for \$3.75.

GARDEN CARROTS

New Early Coreless. A new quick growing variety, that is very tender, without any hard heart, smooth, of medium length, claimed to be better than Chanteney. Per oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.15; 2 lbs. \$2.00.

Chantenay Half long, smooth, round, nothing better
Denvers. Half long, smooth, round, nothing better.

Oxheart Short, round, smooth.

Price of all carrots, ounce, 10c; $\frac{1}{4}$ lb. 30c; 1 lb. 90c; 5 lb. for \$4.00.

CABBAGE

Red Hollander, or Rock Red. The best red cabbage, good size, firm, good grower. Best market cabbages. Price: $\frac{1}{2}$ oz. 20c; 1 oz. 30c; $\frac{1}{4}$ lb. 80c; 1 lb. \$2.60.

Wisconsin Hollander. Selected, and Yellows Resistant. The big crops of Wisconsin cabbages are of this type of Ball Head. Claimed to be the best main crop of all late cabbages. Price: $\frac{1}{2}$ oz. 25c; 1 oz. 40c; $\frac{1}{4}$ lb. \$1.25. 1 lb. \$4.25.

Golden Acre. Early. A 70-day Cabbage. Valuable to the gardener. It has these very important features: extreme earliness, uniform size, hardness of head, hardiness, excellent quality even to small heads, strong plants. You cannot beat it, that's all. Prices: $\frac{1}{4}$ oz. 15c; $\frac{1}{2}$ oz. 25c; 1 oz. 40c; $\frac{1}{4}$ lb. \$1.10, 1 lb. \$3.25.

Copenhagen Market Very early, good head.

Danish Ball head Late, hard heads.

Danish Round head Late, hard heads.

Early Jersey Wakefield Early best.

Late Flat Dutch Good all purpose.

Surehead Good quality, medium season.

Price above cabbage, ounce, 20c; 4 ounce, 75c; 1 lb. \$2.70.

CAULIFLOWER

Early Snowball. A select strain of Early Snowball is the best all around garden and market variety grown. Set it for every purpose. Gardeners that had it set for late last year found it making quickly after the drought, and those that had this kind got the best crop. Price: $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 95c; 1 oz. \$1.65; $\frac{1}{4}$ lb. \$5.00; 1 lb. \$20.00.

GARDEN PEAS

Blue Bantam or Hundrd Fold. A choice large podded early variety. Fine for market gardeners. A few days later than Thos. Laxton, as good quality and better producer. Low vines.

Thos. Laxton. Old, earliest, good. Low growing. Many will plant no other.

Dwarf Gray Sugar Pea. This pea is the kind that you pick and cook as you do wax beans. It is a very desirable dish, and is one item in the garden line that is not overdone. When once tried, they satisfy, and find a ready sale.

Laxtunian Progress. A 40 to 50 day Pea. Pods 4 inches long. Pulls well. Dwarf wrinkled sort that is leading the early markets. Seed stands early sowing.

Dwraf telephone Early, good.

American Wonder Early, prolific, low.

Gradus Early, and very good, low.

Excelsior An old standby, low.

Telephone Tall, market gardeners choice, good quality.

Price of all Peas $\frac{1}{2}$ lb. 20c; 1 lb. 35c; 3 lbs. 90c. 5 lbs. \$1.40; 10 lbs. \$2.75. Write for prices on 25, 50, or 100 lbs.

PEPPER

Pimento Pepper. The best thick meated canning pepper. Very sweet and fine flavored. Price: $\frac{1}{2}$ oz. 20c; 1 oz. 30c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Harris' Earliest. The earliest red pepper. Sweet, and ripen early. Good size and heavy yelder. Those growing for market can not afford to be without it. Price: $\frac{1}{2}$ oz. 25c; 1 oz. 40c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.00.

Harris' Early Giant. But a few days later than the earliest, and wonderful producer of big fruit. New, but liked by everyone. Price: $\frac{1}{2}$ oz. 25c; 1 oz. 40c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.00.

Neapolitan. Earliest and most productive of all big peppers. Sweet. Price: $\frac{1}{2}$ oz. 20c; 1 oz. 35c; $\frac{1}{4}$ lb. 90c; 1 lb. \$3.00

Golden Queen. Largest, best and most handsome pepper. Sweet. Excellent garden and market variety. Price: $\frac{1}{2}$ oz. 30c; 1 oz. 45c; $\frac{1}{4}$ lb. \$1.20; 1 lb. \$4.50.

Long Red Cayenne. Best hot pepper. Price: $\frac{1}{2}$ oz. 20c; 1 lb. 30c; $\frac{1}{4}$ lb. 80c; 1 lb. \$2.90.

Bull nose Sweet

Chinese Giant Sweet.

Hungarians Hot.

Price of these 3, $\frac{1}{2}$ oz. 20c; 1 ounce, 25c; $\frac{1}{4}$ lb. \$1.00; 1 lb. \$4.00.

PARSNIP

Hollow Crown The best.

Ounce, 10c $\frac{1}{4}$ lb. 23c; 1 lb. 80c.

SALSIFY OR VEGETABLE OYSTER

Large Sandwich Island

Ounce, 20c; $\frac{1}{4}$ lb. 60c.

ONION SEED

Giant Prize-taker. Probably the largest onion grown. Good quality, keeps fairly well, globe shape and color a straw yellow. Fairly mild. Price: $\frac{1}{2}$ oz. 13c; 1 oz. 20c; $\frac{1}{2}$ lb. 50c; 1 lb. \$1.60.

Riverside Sweet Spanish. The largest real sweet onion. Grows quick from seed. Better than Prize Taker and sweeter. Good grower, globe shape, and yellow straw color. Very heavy yelder, and profitable to grow, ships well and keeps well. Price $\frac{1}{2}$ oz. 20c; 1 oz. 30c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.30; 2 lbs. \$4.25.

Ohio Yellow Globe

Red Wethersfield

Southport Yellow Globe

White Globe

These four varieties are leaders for all purposes and especially with Market gardeners. Price of all onions, $\frac{1}{2}$ ounce, 13c; 1 ounce, 20c; $\frac{1}{4}$ lb. 45c; 1 lb. \$1.50

RADISHES

White Icicle Long. white.

French Breakfast Round. early, tender.

Vicks Scarlet Globe Round. tender grows quick.

Early Scarlet Turnip Best of all radishes.

Price of Radishes, $\frac{1}{2}$ ounce, 7c; 1 ounce, 12c; $\frac{1}{4}$ lb. 23c; 1 lb. 85c.

LETTUCE

Early Simpson

Grand Rapids Forcing The two best kinds for garden or market.

Price of Lettuce Seed, $\frac{1}{2}$ ounce, 10c; 1 ounce, 15c; $\frac{1}{4}$ lb. 35c.

POP CORN

White Rice. The standard market variety everywhere.

Black Beauty. Just new and wonderful.

Yellow Queen Best, yellow.

Japanese Dwarf Hullness (Tom Thumb)

Price of Pop Corn seed, 4 ounce, 10c; $\frac{1}{2}$ lb. 18c; 1 lb. 25c.

TURNIP AND RUTABAGA SEED

White Egg, Round, early, good.

Snowball Turnip

Purple Top White Globe Turnip

Golden Ball Turnip

American Ruta Baga

1 ounce, 8c; $\frac{1}{4}$ lb. 22c; 1 lb. 65c.

CUCUMBER SEEDS

Longfellows: A new remarkable cucumber better than Long Green. Much like a hot house cucumber. Best for slicing. An abundant grower—very sturdy vines. Cuke grows 12 -15 inches long, and 2 inches or better in diameter. It is a wonder. Don't miss it. Price: $\frac{1}{2}$ oz. 15c; 1 oz. 25c; $\frac{1}{4}$ lb. 60c; 1 lb. \$1.90; 2 lbs. \$3.50.

Improved Early White Spine Best variety for all purposes.

Imp. Long Green Fine for market, slicers.

Chicago Pickling The leading cuke for pickles.

$\frac{1}{2}$ ounce, 10c; 1 ounce, 15c; $\frac{1}{4}$ lb. 30c; 1 lb. for \$1.00.

MUSK MELON

Honey Rock. One of the new varieties that is quite promising. A deep orange flesh, tender and sweet. Not as heavy a net as the Rocky Ford melons and considerable larger. A trifle oblong in shape, 4 to 6 inches in diameter. Yields very well. Quite popular in Ohio, Indiana and Michigan.

Benders Surprise Good size and quality. Best for market

Banana Good in every way.

Emerald Gem A green Flesh wonder.

Osage The old stand by, yellow flesh.

Hearts of Gold The leader in the Michigan Melon districts.

Prices of Musk Melon seeds, $\frac{1}{2}$ ounce, 10c; 1 ounce 15c. $\frac{1}{4}$ lb. 45c. 1 lb. \$1.15

WATER MELON

Coles early A leader everywhere.

Kleckey Sweets A black seeded favorite.

Sweetheart Always in demand.

Tom Watson An old commercial favorite.

Price of Water Melon seed, 1 ounce, 10c; $\frac{1}{4}$ lb. 30c; 1 lb. \$1.00.

CELERY

Dwarf Golden Heart. Leading main crop sort, stocky, yellow heart. Quick grower, splendid quality. Price: $\frac{1}{2}$ oz. 20c; 1 oz. 30c; $\frac{1}{4}$ lb. 80c; 1 lb. \$2.50.

Golden Plume. A new semi-dwarf, very early variety, heavy and thick grower. Celery growers like it. Price: $\frac{1}{2}$ oz. 35c; 1 oz. 60c; $\frac{1}{4}$ lb. \$2.00; 1 lb. \$6.00.

Winter Giant. The best keeper of all. Resembles Self Blanching, only better. Price: $\frac{1}{2}$ oz. 15c; 1 oz. 25c; $\frac{1}{2}$ lb. 65c; 1 lb. \$2.30.

Golden American Best all purpose, tender, early, fine. 1 ounce, 30c. $\frac{1}{4}$ lb. \$1.00.

EGG PLANT

Black Beauty. Early quick grower. Best for short season. Good size, good quality. $\frac{1}{2}$ ounce, 25c; 1 ounce, 40c; $\frac{1}{4}$ lb. \$1.20.

TOMATO SEEDS

Marglobe. A new sensation. Big good. No disease.

Earlianna Well known.

Golden Queen Best Yellow

Jewell, Chalks All purpose.

Bonnie Best Beats all the rest.

Dwarf Stone A market favorite.

Price of Tomatoe Seeds, $\frac{1}{2}$ ounce, 10c; 1 ounce, 20c; $\frac{1}{4}$ lb. 65c; Marglobe 1-3 higher in price.

RHUBARB SEED

Victoria Linneaus 1 ounce, 10c; $\frac{1}{4}$ lb. 25c; 1 lb. 70c.

SMALL FRUIT PLANTS OF ALL KINDS**GRAPES**

The most luscious of nature fruits. Have a variety in your garden. We have a fine lot of vines 1-2-3 yr.

Campbells Ey. Black, very early.

Catawka Large, red, late.

Concord Blue black, a most wonderful grape. Probably the most popular in America. Everyone knows it.

Delaware Ey. Small, red, fine quality.

Worden Ey. Purple Black. One of highest quality.

Niagara Most popular white grape. Wonderful bearer, quality and second popular variety.

Moores Ey. A fine black ey grape. Our prices in table are very low on all grapes.

RASPBERRIES

Cumberland The business black cak. Large, good quality, prolific, everyone like it. Best for market. See our special on Cumberland. Nothing else as good.

Golden Queen A novelty but good.

Try them they will please you.

Columbian Purple The best purple berry ,Grows like Black raspberries. Hardy, very prolific.

Cuthbert The old stand by in the reds, large prolific. Best quality.

King An old good red raspberry.

St. Reges The most popular everbearer. Bears two crops per year. Very early.

LATHAM—OR REDPATH**The New Big Red Raspberry**

Although this is a comparatively new variety it is entirely past the experimental stage, and we unhesitatingly recommend Latham as one of the very best Red Raspberries ever grown. This variety originated at the Minnesota State Fruit Breeding Farm and is being grown extensively in Minnesota, the Dakotas, also in Canada, and has never been known to winterkill, even though exposed to 45 degrees below zero. Latham is a tall, vigorous grower, canes extra heavy, foliage dark green, entirely free from disease. Ripens with Cuthbert and is enormously productive. Berries much larger than any other Red Raspberry, many one inch in diameter. Color good, quality of the best full Raspberry flavor. Excellent for shipping or home use. We have both large and medium sized plants. Both are good and grow well.

THE CHIEF RED RASPBERRY

The Chief is an offspring of the famous Latham. It has been tested over a period of years and strongly recommended for its excellent all around quality. This variety originated at the Minnesota Experimental Station in an attempt to secure a red Raspberry with all of the qualities of the Latham but maturing ten days earlier. Besides being extra early the Chief is absolutely hardy and a very heavy yielder. The larger berries are firm. They are excellent for shipping to long distance markets, and because of the early ripening feature, will soon be in demand in excess of other varieties. Many claim it will out-yield Latham, fully as large and a better berry. We believe it is bound to become the leading variety for market, being ten days earlier, it is being more widely planted than any other. Plant an acre of Chief and be ahead of every one with other kinds of reds. Don't put off getting the Chief. It is bound to be the best money getter.

ELDERBERRIES

Adams Improved A new fruit, perfected from the common elderberry. Every one likes elderberry pies, jams, wines etc., but the only way to get them has been to chase the dusty roads or fields. This is an improved variety; the berries of which sometimes measure nearly one-third of an inch in diameter. The berries are not only larger but finer in every way than the wild variety. Try them.

CURRENTS

London Market This is the best red current grown. About the heaviest bearer of exceedingly juicy and pulpy fruit. When picking you can literally rake them in. Records have been made of \$500 per acre here in the fruit belt, growing London Market. Large hardy-growing bushes.

White Grape Current Best white. Large, pulpy, actually sweet, yet slightly acid. Good for all purposes. Best canner, and a profitable market current. You will have no competition in growing a field of white or red currants.

Wilder's Prolific—One of the largest and best Red currents. Big Bunches. Big Berries. Very Prolific.

GOOSEBERRIES

Houghton A medium-sized, smooth, pale red gooseberry of fine quality. The bushes are very hardy, vigorous and productive, producing an almost incredable amount of fruit. Fine for home use or market.

Downing This is a very popular variety. Bushes grow very stocky. Immensely productive of medium to large, pale green fruits, larger than Houghton.

BLACKBERRIES**A NEW BLACKBERRY**

ALFRED—so called by the originator, but many are insisting that it be called **THE MICHIGAN WONDER**, and we think the latter name much more fitting. Our Plants were secured direct from the originator, so they are Simon Pure. The plants are exceptionally large and thrifty, and have proven to be hardier than other kinds. Rapid, healthy growers, and plants multiply rapidly. We have fruited it two seasons and find it all or more than is claimed for it. Berries are very long and large. In fact the largest bush blackberries we ever have seen. The quality and flavor of berries is the best, being sweet, and delicious, and so near coreless that by many enthusiasts it is said to be coreless. Enormous yields are being made, and we believe it only a matter of a few years when no

14. Our Best Asset is Your Good Will and Satisfaction.

other variety will be planted. Worth trying— at any rate. See table for prices.

ELDORADO

Eldorado The best all-round berry. Most popular blackberry in the country today. It is hardy, large, productive, and of excellent quality. Berries are long in shape, sweet, and delicious; are borne in great clusters. No one will go wrong in planting Eldorados. We have a large supply of nice well-rooted plants and our prices are very low.

LUCRETIA DEWBERRY

The Most Profitable Variety

The variety has proven itself the best and most profitable variety for market or home use yet introduced; in fact, we find it far ahead of any other variety. Lucretia is a strong, vigorous grower and will produce nearly a full crop of fruit the year following planting. It is entirely free from rust and other fungous diseases, withstands dry weather and other hardships, and produces a tremendous crop of fruit every year. Berries are extra large, often two inches long, a lustrous black color, sweet and delicious.

(See Prices in Table at Middle of Catalogue.)

FOREST TREE SEEDLINGS

Set that gully, swamp, hill or sand knoll to growing trees. It is growing into money while you sleep. And improves the looks of the farm. Likewise increases its value.

SHADE, FOREST AND ORNAMENTAL TREES

"He who plants a beautiful tree, plants life."—Theodore Roosevelt.

"When free timber is gone we must grow our wood from the soil like any other crop. Our forest problem is a land problem of the first magnitude."—Calvin Coolidge.

"All over this great country of ours public spirited citizens, with the aid of public spirit should see that barren hilltops, and hillsides, gullies, and swamps, sand knolls and mountain hillocks are reforested with quick-growing trees of the best timber for the preservation of a beautiful landscape, and the use of future generations."—Theodore Roosevelt.

A few dollars spent for proper seedlings, and a few hours' work will reset waste swamps and barren sand

knolls with seedlings of useful timber. We can supply forest tree seedlings for every purpose. See our list of seedlings.

Plants received O. K. Am well pleased and satisfied.—J. A. Herman, 331 Prospect St., Wellington, Ohio.

I received shrub shipment a day or so ago. A nice looking lot. Thanks for good stock and prompt shipment.—J. H. Lov, 247 Douglas Avenue, Portsmouth, Va.

SHADE AND ORNAMENTAL TREES

Catalpa Speciosa The big catalpa tree 6 to 8 ft. trees, \$1.00; 5 for \$4.00; 8 to 10 ft. trees, \$1 each.

Golden Willow A beauty, semi-weeping, yellow bark, 6 to 8 ft. trees, 75c; 4 ft. trees 40c; 10 for \$3.50.

Wisconsin Weeping Willow—A very hardy tree with long, sweeping pendulant branches—Areal weeper. Green bark. One of the most beautiful of trees. Prices: 4 to 6 ft., 50c; 6 to 8 ft., 75c; 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.50; 12 to 15 ft., \$2.00.

American Maple (Hard or Sugar) Native Northern maple. Fine shape, beautiful shade tree. 10 to 12 ft., \$2.00 10, \$12.50; 8 to 10 ft., \$1.25; 10, \$10; 6 to 8 ft., 75c; 10 \$7.

American Elms A fine shade tree stands smoke and city life well. 8 to 10 ft., each, \$1.25; 10 for \$10. 6 to 8 ft., ea. \$1; 10 for \$7.00; 4 to 6 ft., ea. 50c; 10 for \$4.

Norway Maple "The Tree Beautiful." It would take a lot of space and time to tell you all about this tree. It is hardy, quick growing, round top, dense, dark green foliage. The most ornamental of the good shade trees. This is a very special price. 6 to 8 ft., \$1.50; 10 for \$12.50. 5 to 6 ft. \$1.00; 10 for \$8. 4 to 5 ft. 75c; 10 for \$6.00.

American Ash A pretty, quick growing desirable tree. Good anywhere. 6 to 8 ft., \$1.00; 10 for \$7.50.

White Birch Large growing. White trunk and limbs. Graceful and hardy. 6 to 8 ft., \$1.00; 3 to 5 ft., 75c each.

Whitewood, or Tulip Tree A beauty, Grows fast and large. Has a tropical effect. Leaves are almost as large as palm leaves. 6 to 8 ft., \$1.00.

Cut-Leaved Weeping Birch One of the most beautiful of ornamental trees. Its weeping effect is very attractive for lawn or park. In demand. 5 to 6 ft., \$2.50; 4 to 5 ft., \$1.50; 3 to 4 ft., \$1.

European Mountain Ash. Different, hardy, foliage dark green and beautiful. Rather formal and artistic. In autumn covered with large red berries much like small crabs. 5 to 6 ft., each, 75c; 4 to 5 ft., 50c.

Catalpa Bungii Fine for parks, lawns or cemeteries. Called by many the "Umbrella Tree". Has a dome-shaped head, large soft leaves. It is our finest Caltalpa and very ornamental. Many times you will see them set on each side of a walk. We have them 4 to 5. at \$1. 25; and 5 to 6 ft. at \$1.50. These are extra fine trees.

American Beech (Beech nut) A very desirable tree for lawn, shade or timber. Also a fine nut tree. Has long, slender limbs and bright, shiny foliage. Small trees are the best to set, and they grow quite fast after once they get started 5 to 6 ft., \$1; 4 to 5 ft., 75c; 3 to 4 ft., 50c.

Black Locust Quick growing, not a bad looking tree when planted by itself. Will grow where others will not. Usually set for fence posts and stakes to be used around a farm. We have some nice 6 ft. trees at 50c each; 10 for \$4.00. Seedlings for \$1.50 per 100, \$10.00 per 1000.

Shade Oak Becoming popular as a shade tree for street and park planting. Grows and thrives where others will not. Stands city life well. It is the fastest growing oak.

Has deep green, waxy leaved foliage which turns to a glowing scarlet in autumn that is very attractive. Your children and their children will be glad you planted an oak. 4 to 5 ft. each, \$1.00; seedlings, per 100 \$7.00.

Ailanthus Tree of Heaven. Originates from Japan. A fast growing tree, with long, slender, feather-like leaves. Is absolutely free from insects and disease and quite hardy here. Is a very odd, bushy, ornamental tree. Can also be used as a shrub by cutting them low every year, making a tropical effect. Price: 4 to 5 ft., partly branched, each. \$1.00; 10 for \$7.00.

Schwedler's Maple The most popular, desirable and handsome Maple tree grown. Has dark crimson to red leaves. Round, compact top. Hardy and very conspicuous among other trees. Always in great demand because of its beauty, and price is usually about \$5 per tree. We have put a very low price on our nice trees. 5 to 6 ft., nice trees, \$2.50 each; 2 for \$4.00. 8 to 10 ft. at \$3 each.

Lombardy Poplar A native of Italy. Grows well anywhere. Liked for its shiny foliage and tall pyramidal shape. Grows quick. Much planted in landscape work. 6 to 8 ft., 65c; 10 for \$4.00. 4 to 6 ft., 50c; 10 for \$4.00. 3 to 4 ft., 30c; 10 for \$2.00. 8 to 10 ft., 85c; 10 for \$7.50. 10 to 12 ft., \$1.00 each. Write for lowest price.

American Larch Very striking and ornamental. It is a deciduous conifer. Likes a damp soil but will grow on any soil anywhere, even in the poorest of soil. Very handsome when leafing out in the spring. Of medium size and fine shape. You will like it. 6 to 8 ft., 75c; 10 for \$6.00. 4 to 6 ft., 50c; 10 for \$4.00. Small trees, 2 to 3 ft., 30c each; 10 for \$2.00.

American Linden, or Basswood Leaves are as large as both your hands. A fast growing tree. Very popular as a shade tree. Fine for shade as it is very compact. 5 to 6 ft., \$1.00; 4 to 5 ft., 75c.

American Sycamore, or Plane Tree Fast gaining popularity. Good to set anywhere. Will stand smoke and gas, pavements and city life. Being much set on city streets. Because of its green, gray and brown bark it is a very pretty tree even after the leaves are shed. 6 ft., \$1.00; 4 to 5 ft., 75c.

Sassafras One of the finest of trees for group planting on lawns, parks or large estates, or for backgrounds anywhere. It grows fast and has a tropical effect; has beautiful foliage. 5 to 6 ft., 75c; 10 for \$5.00. 3 to 5 ft., 50c; 10 for \$3.00.

Soft or Silver Maple Grows quick. Nice shade tree. Best for quick shade grows anywhere. 6 to 8 ft. 75c each. 10 for \$6.00. 8 to 10 ft. \$1.00, 5 for \$4. We have larger.

Chinese Elms 4 to 6 ft. \$1. 6 to 8 ft. \$1.50 8 to 10 ft. \$2.

These are claimed to be the quickest growing, good shade tree. Grow 6 to 8 feet in one year, and are thick and very strong.

NUT TREES

Beechnut See shade trees for price.

Black Walnut Quick grower, valuable for timber, nice shade tree. 5 to 6 ft. trees 75c. 4 to 5 ft. trees 50c.

American Sweet Chestnut Will grow anywhere but on low ground. Every home should have several, easy to grow. 3 to 4 ft., 75c. 4 to 5 ft., trees at \$1.00.

Butternut A quick grower, grows anywhere dry or wet ground. 3 to 4 ft. trees 50c. 5 for \$2.00. 4 to 6 ft. trees 75c.

EVERGREENS

They grow more beauty than any other tree. All evergreens are bailed and burlapped.

Norway Spruce The best of them all, for all purposes. 8 to 12 inches transplanted, 35c each. 10 for \$2.50. 25 for \$4.00. 50 for \$7.00. 100 for \$13.00.

12 to 18 inches transplanted, 75c each. 10 for \$6.00. 25 for \$18.00.

18 to 24 inches twice transplanted, \$1.00 each. 10 for \$9.00. 100 for \$75.00.

Twice transplanted 2 to 3 feet each \$1.50. 10 for \$13.50. 3 to 3½ feet \$2.50 each. 10 for \$23.00.

American Arbor Vitae Probably the second most popular evergreen. Seven 8 to 12 in. transplants for \$1.00.

We have larger ones than offered here if desired.

2 to 3 feet, heavy and bushy, \$1.25 each; 10 for \$10.00. Same size, not quite so heavy, 90c each; 10 for \$8.00;

18 to 24 inches, heavy and bushy, each, 75c; 10 for \$6.00. Same size not quite so heavy 50c each; 10 for \$4.00.

12 to 18 inches, heavy, 40c each; 10 for \$3.00. Same size, not quite so heavy, each 25c; 10 for \$2; 25 for \$3.50. 100 for \$13.00.

8 to 12 inches, transplanted, 20c each; 10 for \$1.50; 25 for \$3.25; 50 for \$6.25; 100 for \$10.00; 200 for \$18.00; 500 for \$40.00; 1000 for \$70.00.

Juniperus Depressa Sometimes called the creeping Juniper. Very hardy. Has a beautiful spreading habit. Fine for planting in front. 12 to 18 inches spread at \$1.50 each, 3 for \$4.00.

Hemlock Spruce Or Weeping Spruce. Probably the most beautiful native evergreen. 12 to 18 inches, \$1.00 each, 18 to 24 inches, \$1.50 each, 2 to 3 ft., \$2.00 each, 3 to 4 ft. \$3.00.

White or Majestic Pine A beauty, graceful, one of the hardiest. Will grow on wet or dry land. 1 to 2 ft., 75c; 2 to 3 ft., \$1.00; 3 to 4 ft., \$2.00. 4 for price of three.

Colorado Blue Spruce Its beautiful blue tips make it the most highly prized of all evergreens.

8 to 10 inch transplants. Nice and sturdy, 75c each, 5 for \$3.50.

10 to 15 inch twice transplanted \$2. each

15 to 20 inches \$4. each; 2 to 3 ft. \$7. each.

Virginia Junipers Beautiful and decorative. 12 to 18 inches 50c each, 5 for \$2. 18 to 24 inches \$1 each. 2 to 3 ft., \$2.00 each... 3 to 3½ ft., \$3.00 each.

White Spruce 8 to 12 inches \$1.00 each. 12 to 18 inches \$1.50 each. 18 to 24 inches \$2.00 each... 24 to 30 inches \$3.00 each.

Tom Thumb Arbor Vitae Very dwarf, globe shape, hardy. 8 to 12 inches 75c each, 4 for \$2.00.

Mugho Pine Dwarf, low spreading, globe shape, very hardy. 5 to 8 inches 50c, 5 for \$2.00. 8 to 12 inches \$1.00. 3 for \$2.50. 12 to 18 inches \$1.50 each.

Globe Arbor Vitae Hardy, grows close and round. Dwarf, desirable. 8 to 12 inches 50c; 3 for \$1. 12 to 15 inches \$1. each, 2 for \$1.75.

Scotch Pine A beauty. Hardy, quick grower. 8 to 12 inches 40c; each. 12 to 18 inches 60c. 18 to 24 inches \$1. each. 24 to 36 inches \$1.25.

Austrian Pine Hardy, grows large, beautiful. 8 to 12 inches 40c, 12 to 18 inches 60c. 18 to 24 in. \$1; 3 for \$2.50.

Pfitzer Juniper Dwarf, low growing, spreading. 8 to 12 inches \$1.00 each, 3 for \$2.25. 12 to 18 inches \$2.00

Savin Juniper. Resembles Pfitzers, but smoother. Price 8 to 12 inches \$1.00. 12 to 15 inches \$1.50.

Larger Evergreens. We have many larger Evergreens of some varieties and a few of most kinds, but have to save some for the hundreds of people that come to the Nursery for their Victory Plants, so if you will write us your wants we may be able to supply just what you want.

Irish Juniper Foliage a silvery, bluish green. Very hardy. Grows tall and narrow. Quick grower. 8" to 12" each 50c; 3 for \$1.25; 12" to 18" each 75c; 3 for \$1.75; 2 to 3 feet each \$2.; 2 for \$3.50. This is decidedly a dwarf and it is a beauty.

Pyramidal Arbor Vitae 8" to 12" 50c; 3 for \$1.25; 12" to 18" 75c each; 3 for \$2.00; 18" to 24" \$1.25 each; 3 for \$3.00; 2 to 2½ feet \$2.00 each; 2 for \$3.50; 2½ to 3 feet \$3.00 each; 2 for \$5.00. **THESE PRICES SHOULD COMMAND ATTENTION.**

Our evergreens are all several times transplanted and root pruned—it means they are better evergreens than are usually obtainable. Let us show you?

EVERGREEN SEEDLINGS

Here is a wonderful opportunity for the Home Owner and Farmer to grow their own evergreens for hedges, screens or windbreak planting. If only a few are wanted, they can always be disposed of to the neighbors and friends at a nice profit. Sold only in lots of 50 and 100 or more. Most of the seedlings run 4 inches or better. Full directions for planting and growing the same. Nothing hard about it. A few dollars and a little effort will produce some wonderful little trees.

Norway Spruce 4 to 6 inch, \$2.50 per 100; 500 for \$9.00; 1,000 for \$15.00. 6 to 10 inch. \$4.00 per 100; 500 for \$16.00; 1,000 for \$30.00.

Hemlock Spruce 3 to 5 inch, \$3.00 per 100; 500 for \$20.00; 1,000 for \$30.00.

Majestic Pine 4 to 6 in., \$5.00 per 100; 500 for \$20.00; 1,000 for \$35.00.

Prices on small Irish Juniper, Pfitzer's Juniper, Swedish Juniper, Pyrimdal Arbor Vitae, Savin's Juniper and Glove Arbor Vitae and others on request.

HARDY SHRUBS**Field Grown**

Special on all shrubs. One, two and three year shrubs, 4 shrubs for the price of 3. A very special price on 25 or more of one kind.

You get about what you want to pay for in shrubs. A shrub can be one year old and be good size—unscrupulous nurserymen call large one year two year shrubs. But they never do so well—are too tender and immature. Then too shrubs are sorted into so many different grades, it depends upon the fairness of the nurserymen. We have one year, two year and three year shrubs.

Read the descriptions of the shrubs in anybody's catalogue but send us your order. You will get full value.

Lawn trouble will be ended if you sow our Evergreen Lawn Mixture. If you want a beautiful lawn that will at all times be green and velvety, don't waste time and money sowing cheap grass seed. Our Evergreen Lawn Mixture is composed of the finest varieties of grasses, each of which has its season of beauty, with the result that a sod is produced that is always green. It will produce a rich and enduring turf in the shortest possible time without the use of cheap "quick growing" grasses. Not only is our Evergreen Lawn Mixture the best lawn mixture obtainable, but in the end it is really the most economical brand to plant. Being free from chaff, and of high germination, one pound will sow 400 square feet. Price, $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 3 lbs., \$1.00; 5 lbs., \$1.50. 10 lbs. for \$3.

THE NEW DOUGLAS

The New Douglas. Claimed to be blight proof and cold resistant. Bears early, often same season planted and produces a heavy crop. A regular cropper in all soils and localities. Fruit large, smooth; beautiful golden yellow color, flecked with red and russet. Flavor delicious, very sweet, melting and juicy. Something new and better. Do not miss this money maker. 4 to 6 feet., each 60c; 2 for \$1.00; 11 for \$5.00.

THE NEW LINCOLN PEAR

The New Lincoln Pear. A new Pear of much promise. First of all the hardy, thrifty, growing tree that is practically blight proof. Adds a world-wide attractive feature. The tree is very large. The parent tree has produced 50 bushel of excellent fruit, about the size of Bartlett. The fruit is a little shorter and thicker in shape. Deep golden yellow with a reddish cheek. Very juicy and sweet. Skin is a little heavier than the Bartlett making it better for market and for keeping. It is at home when stored until other pears are off the market when its merits as an eating pear, canning pear and a long-time keeper has the market to itself. It is bound to be better known and more extensively planted. Price of trees:- 2 years, 4 to 6 ft. \$1.00 each; 2 for \$1.75; 5 for \$4.00; 10 for \$7.00. Don't miss it.

APRICOTS

Hungarian Sweet—This new variety from Hungaria, has been well tried, and has been found to stand the climate of central U. S. will bear abundantly yearly. Fruit medium size. Excellent quality, and destined to be extensively set. Be sure to try it.

Price of nice trees: 70c ea; 5 for \$3.25; 10 for \$6.00.

Moorpark Apricot—An old favorite kind. Price of trees 40c each.

QUINCES

There are many varieties but we have discovered that there are only two kinds that are the leaders.

The Orange Quince—Large, round, thick meated. Good bearers. Price: 50c ea.

The Champion Quince—Medium size, very heavy bearer. Strong, good quality trees. Price: 50c each.

PLUMS

Lombard—A favorite for canning, and eating out of the hand. Hardy tree, and very prolific. Should be in every collection. Medium size. Purplish red.

Bradshaw—Large, early, purple color, yellow flesh, juicy. Good for every purpose.

German Prune Plum—Set these, and make money on an acre. The past few years it has been the most widely sought after plum. Markets demand it. Large purple fruit. Ripens in late Sept.

Abundance—One of the earliest. Purple carmine in color. Fine quality, especially for eating out of the hand. Sells well.

Damson—Small, blue plum of highest quality. Sought after for canning.

Green Gage—An old standby for home use.

Yellow Egg—Large size, bears young, and early in season, August. Fine for canning and eating out of hand. A money maker.

Waneta—A Hansen Hybred of first merit. Large, hardy everywhere, best quality. One of the best of recent years. As large as a peach. Red. By many called a California Plum. Set it.

Opata—Another Hansen plum. Hardy everywhere. Early, good. Abundant bearer.

Sapa—Trees bear when three years old. Purple, good quality, Another Hansen plum of promise. Hardy.

Underwood—A new Minnesota plum. Large, excellent quality, heavy bearer. Hardy tree. Wonderful for canning or eating out of hand. See this one.

Tonka—Another Minnesota plum. Hardy everywhere. Fruit large, pit small. Best quality. Liked by all in every-way.

Goldenrod—A Minnesota plum of highest merit. Clear yellow. Loads its branches to breaking. Does well everywhere.

Prices of all plum trees: 2 yr. 4-6' 45c ea; 10 @ 40c; 25 @ 35c; 100 @ 30c.

PEACH TREES

Can supply Elberta, Kalamazoo, Gold Drop, New Prolific, Early Crawford, Late Crawford, Rochester, Lemon Free, South Haven. All are yellow free stones number one trees each 25c, 10 for \$2, 100 for \$17.00. Write for price on medium sized trees and our many bargains.

Champion is a white freestone, same price.

All peach trees are No. one, (9-16-in) caliber.

We have medium trees of above varieties 7-16 at 18c each; 10 for \$1.50; 100 for \$12.00.

Sweet Cherries

Black Tartarian. A very hardy tree which thrives everywhere. Vigorous in growth and very productive. The fruit is large, bright purplish black, juicy, sweet, and of rich flavor. Flesh is firm. Fine for eating, canning or market. Ripens late June.

Windsor. A late variety which is very valuable for home use and profitable for marketing. Ripens in July. Fruit is large, dark red, with firm, sweet flesh. Fruit hangs on the tree a long time and is not subject to rot.

Bing. The popular, new sweet Cherry with dark brown, nearly black color. Extra large fruit which is attractive for local market or shipping. Flesh solid, fine flavor. Tree is hardy and a prolific bearer. Ripens in July.

Schmidt. An excellent market Cherry. Fruit is very attractive and keeps well. Deep crimson-red color. A heavy producer of extra large, tender, juicy fruit.

Napoleon, Yellow Sweet. (Sometimes called Royal Ann). A magnificent, large, yellow Cherry with bright red cheek. Bears fruit that is firm, juicy and sweet. Highly recommended as an all-around Cherry for eating, canning or market. Ripens in July.

Sour Cherries

Large Montmorency. The best late Sour Cherry, ripening about ten days later than Richmond. Fruit extra large, bright, shiny red, firm, juicy; fine for market and shipping. Keeps well and is excellent for canning. Tree strong grower, perfectly hardy, bears young and can be depended on to produce a full crop.

Early Richmond. Earliest Sour Cherry. A very popular and valuable acid variety. Fruit is medium large, bright red and juicy. Fine for pies and canning. Bears a heavy crop early. A slender tree which is very hardy.

Sweet and Sour Cherries Same Price

Each	3	10	25	50	100
45	\$1.20	\$3.50	\$8.00	\$15.00	\$31.00

PAW PAW TREES

This is both a fruit and a fine ornamental tree, of medium size, 10 to 15 feet. It has a tropical effect when planted in groups as backgrounds. For fruit, it is called the Northern Banana, which it closely resembles; very sweet and fine flavored. Ripens in September. Large trees, each 75c; 12 for \$5.00. Medium trees, each 40c; 10 for \$3.00.

MULBERRY TREES

Russian Mulberry. By far the best. Each 60c, 4 for \$2.00

GLADIOLI

Mixed Gladioli Many people are averse to bothering with named Gladioli, preferring to get a good selection of mixed colors. We keep our mixture full of new sorts and find that they all will please you. There are many colors and varieties given in mixture, but in no way do we guarantee colors nor variety in mixed lots; but are sure you will be pleased. Gladiolias are being offered very cheap this season. Some offer 50 for \$1; some 75 for \$1; others 100 for \$1. We believe some will give you a dollar to come and carry their bulbs away, but our offer is the best of all; 125 Blooming bulbs for \$1; a smaller size 200 for \$1.; large, No. 1 blooming bulbs 25 for 50c; 60 for \$1. The larger the Bulb planted the larger the Bloom.

NAMED GLADIOLIAS

If you wish to get certain colors and want some of the select varieties, you can order from these named below:

E. J. Shalor—Rose-pink, ruffled.

Evelyn Kirtland—Shell pink, blotch in throat, edge of petals darker.

Golden Measure—Big flowers. Clear yellow. A sensation.

Orange Glory—Ruffled. Deep orange yellow.

Ming Toy—A buff or Chinese yellow.

Mary Pickford—Clear white, soft yellow blotch.

White Butterfly—Very graceful, pure white, soft cream throat. Distinct.

America—Soft white & rosy pink. One of the best.

Crimson Glow—Large, glowing crimson.

Mrs. D. Norton—Creamy pink, yellow blotch.

Hereda—Light lavender and purple.

Joe Coleman—Deep rich red. Ruffled petals.

Louise—Large bloom of exquisite lavender.

Prices of Named Gladiolias, all same price; 6 bulbs for 35c; 12 for 60c; 25 for \$1.; 100 for \$3.00; 25 or less prepaid for 1c a bulb. 50 or over prepaid at $\frac{1}{2}$ c per bulb.

DAHLIAS

Mixed Dahlias "This is our messenger of good will mixture," and it is where you get your money's worth. 6 for 50c. (postage 5c extra). 15 for \$1.00 (postage 10c extra) Our Mixture is a good one. If you do not care to fuss with choice select named colors you will find this mixture much to your liking. This is the way we like to set them.

CANNAS

Our blue ribbon mixture of cannas. We have many varieties of colored blossoms and foliage in this mixture. But we cannot advise what colors you will get in any mix-

ture. 3 for 30c; 12 for \$1.00. Add 5c for 3, 10c for 12 for postage if wanted by mail.

Felix Crousse Red 60c each, 3 for \$1.50.

Festiva Maxima White 45c each, 3 for \$1.15.

Hummei Carmine pink 50c each, 3 for \$1.25.

Andre Lauries Late, red, 60c each, 3 for \$1.50.

Francis Ortegat Lustrous, deep crimson, 45c each.

Superba Pink, early, 45c each.

Victoria White 45c each.

Madam Calot Rose type, Hyderangea pink, 50c each.

American Beauty A red that every one wants, 65c each 3 for \$1.75.

Golden Harvest A full round creamy bloom, 75c each.

Frags Late, solid red, 50c each.

Mixed Peonies All the above colors and varieties, also others that we are not naming. When mixed peonies are ordered, we do not guarantee colors, but our customers are always pleased. Price, each, 25c; 5 for \$1.00, 25 for \$4.00; and if you love peonies, don't pass this offer by.

BERMUDA ONIONS

They are money makers

Do not be afraid to set them

For several seasons we have experimented with Bermuda Onions. We are past the experimental stage and can recommend them as real money makers. Yes, we mean just that—Bermuda Onions will make money—as much as \$2,000 per acre. There is no secret to it at all—unless you would call “doing a thing well,” a secret. And indeed, it is for some people, and that is just it. Do the job as we tell you and you will make more money than you ever have off a small piece of land.

Choose a piece of well-drained land, muck if you wish, or any good flat land that is retentive of moisture. A clover sod is good if the land is not too dry. In fact, any good land that is loamy, rich and mellow. Fine, rotten manure at the rate of about 10 tons to the acre, and 500 pounds of good commercial fertilizer, or 1,000 to 1,500 pounds if manure is not used. Set your plants as early as possible, the earlier the better—in March if possible; if not, early April, or as soon as you can, depending on the weather. We have set as late as May, but results were not so good. Work them early, and keep it up until ready to lay by. This crop will sell at wholesale, when you have the market to yourself at from 4c to 8c per pound.

We set our plants in rows 18 inches apart, and 6 to 8 inches apart in the row. Someone set closer, some wider. It will require 40,000 to 50,000 plants to set an acre. You can grow these onions cheaper, all costs, seed, sets, labor and all, everything considered, than you can a crop of seed onions, and so much quicker. It may seem a little slow to set 40,000 to 50,000 plants, but at that you can do it cheaper and quicker than you can hoe and weed the seed crop just once—and your sets are so much

larger and stronger that the care of them is easy compared to seed onions.

Something about our onion plants. We have tried plants from Texas, Florida, Georgia and other places, but the plants grown on the Georgia coast have proven the hardiest, grow the best and produce the best—and we have tried to our heart's content. We think we know.

So we have contracted with a reliable Georgia grower for our large supply. Large orders will be sent direct. Small orders will be mailed or expressed from our Nursery. These plants were raised out-of-doors and will stand a cold of around 15 degrees above and not be injured, but keep right on growing. You can safely buy these plants as you are covered by our GUARANTEE. These plants will reach you in perfect growing condition.

We have made these few lines as brief as possible, but if you need more information, be free to write us as we will gladly be at your service.

The Large Onion Grower should not miss an acre or two. Market Gardeners should not miss the opportunity that is open to them to supply their own market with a few hundred bushels of these onions. They will make you money. You can put them on the market when you will have the market to yourself.

The home Garden should have a few thousand of these sets. They are so mild our children eat them like apples. They are better to cook than the strong onions, and a family will use twice as many of them as they will of strong ones. We have several bushels on hand now, that seem to be keeping well—have given us no trouble at this writing, Jan. 1, 1931. It is generally supposed that the Bermuda Onions will not keep, but ours are doing nicely.

We have the following varieties of Onion Plants; Sweet Bermuda, Cyrstal Wax or White Bermuda, Prize Taker or Spanish, and Yellow Globe the Northern seed growing variety. Prices of Onion Plants, Postpaid: 100 plants 25c; 200 plants 45c; 500 plants 75c; 1,000 plants \$1.25; 3,000 plants \$3.25; 6,000 plants \$5.50. We pay postage or express on these.

Prices on Onion Plants express collect: 1,000 plants 90c; 3,000 plants \$2.25; 6,000 plants \$3.75; 10,000 plants \$6.50; 25,000 plants \$16.00; 50,000 plants \$30.00. You pay express or postage on these.

READ THIS

Last year I purchased 500 of your Yellow Bermuda onion plants and set them the 10th of May and raised 7½ bushels besides the green onions we used, of the most wonderful onions anyone ever saw. We sold these to our Grocer and everyone liked them. We want more this year.

Yours truly.

H. C. Craven,

Kalamazoo.

Michigan.

628 Lake St.,

March 3, 1932

OUR \$1.00 BARGAINS

56—5 transplanted Colorado Blue Spruce only \$1.00.

LARGE SPECIMEN SHRUBS FOR IMMEDIATE EFFECT

Many people are adverse to buying small shrubs as they want and need something larger and more mature. At a very little more cost we have 3 and 4 year specimen shrubs. The roots are large and our system of digging assures you of a shrub in perfect growing condition. You are fully covered on these large shrubs by our **GUAR-
ANTEE.**

Select your wants from the following:

3 or 4 yrs. old

Spirea Van Houttei, pink, white and lavender, Pink Flowering Almond, Cornus Siberica, Cornus Florida, Deutzia, Pride of Rochester, Golden Spirea, Pink, Red or White Bush Honeysuckle, very large Japanese Barberry, Lilac Clumps, Pink, White and Lavender, as well as Althea or Rose of Sharon, Improved Pussy Willow, Spirea Anthony Waterer, Spirea Arguta, Blue Wistaria Vine, Hall's Climbing Honeysuckle, and Syringa. We guarantee you satisfaction on these specimen shrubs at 50c each, and they are large; also on the extra select at 75c each.

Shrubs and all trees need to be planted just a little deeper than they grew in the Nursery. One thing to be avoided is planting in "filled in" soil, where ashes and rubbish are used. Precaution must be taken and these holes dug large and deep and good earth used plentifully around the roots. Many shrubs are killed by poor plant-

ing, especially on "filled in" soil. Nurserymen are not to blame for poor soil, planting shrubs in rocks, ashes and cinders, and poor setting and care, and should shrubs, plants or trees die from these causes, should not be held responsible.

We are in the market for plants, and in case we do place our order with you we trust that you can give us the same grade of stock as we received last year from you.—Otto Matzinger, Sterling, Illinois.

USEFUL, ARISTIC AND BEAUTIFUL

Dwarf Pear and Dwarf Apple trees are all of that and more, set on lawns or in back yards. Their beauty and size make them desirable among shrubbery.

A word about our one-year shrubs:

They vary according to the kind. Some of them attain a height of 2 to 3 ft., but they are not so bushy nor thick as the 2 yr. shrubs. Other kinds will only get 12, 15 or 18 inches growth in a year, because they are somewhat dwarf or slower to grow, so you will not get all one year or all two year shrubs of all kinds of the same size. All of our shrubs are good, but now you will understand that all varieties of shrubs do not grow alike in size.

I bought 100 Dwarf Barberry for a hedge last Spring, set them out and they have grown wonderfully and I now have a nice hedge.—A. H. Eskes, Lansing, Mich., Route 4, Box 235.

The Barberry and Asparagus plants received and were worth the money.—R. S. Zeuimers, Blairsville, Pa.

More depends upon the Nurseryman from whom you order than upon his catalogue. Red Pictures and over drawn promises do not please customers—in the end it is Satisfaction that pleases.

READ THIS

We want to let you know how well our trees did last year. Out of 200 Montmorency Cherry trees, and 250 Peach trees purchased from you in May 1928, also 50 Cortland Apple trees, we lost one Peach tree. These trees were planted after the middle of May and made a remarkable growth, maximum for Cherry 39 inches, for Peach 46 inches and Apples as much. We are planning on setting Peach, Apple and Cherry trees if we can get the land prepared. How is your supply of Strawberry plants? Maybe we will want 10,000 plants. Send us your catalogue as soon as possible. Wishing you a prosperous season.—Carl Schweikert, Hopkins, Michigan.

The plants that I got of you did fine, and never missed a crop after they began to bear, while several of my neighbors didn't have any on account of the frost.—W. S. Hall, Route 3, Avon, Illinois.

I received your plants a few days ago, came through in very good shape and in very good condition.—A. B. Kirkpatrick, 503 Evans St., Peoria, Illinois.

Potatoes arrived O. K. Thanks.—C. H. Beltz, LaOtto, Indiana.

I received the Irish Cobblers and they are fine. Thanks.—Mrs. Eva Anderson, Sawyer, Michigan.

I wrote to you two days ago that my order of plants had not arrived. Yesterday they came in good condition, for which I thank you.—B. C. Roper, Hixon, Texas.

The onions which I wrote you about this morning have arrived this afternoon. O. K.—Walter J. Smith, 23 E. Water St., Muncy, Pa.

Received plants in fine shape. Thanks.—Geo. A. Schlappi, Route 1, Box 140, Lansing, Mich.

Will you please send me your 1931 catalogue. I bought some nursery stock from you last year and was well pleased with it.—Mrs. J. F. Custer, Blue Springs, Neb.

I received my goods and I will say I never had nicer plants from anywhere. You may look for some more orders soon.—Mrs. J. W. Tuttle, Wallburg, N. Carolina.

WHERE WILL YOU ORDER?

We solicit your patronage, and we trust you will order of us. Look over as many catalogs as you wish, but study our catalog, too, and our location in the greatest Northern Fruit Belt in the country, our conveniences, our natural ability, our prices, our **GUARANTEES**, and the fact that ours is a family Nursery, where we all live on the farms, and ourselves largely grow and pack your orders, and do our best to satisfy you, and we have no fear but what you will send us a nice share of your orders. We are at your service working for your interests continually, for your interests are our interests.

We guarantee that no matter what you pay, nor where, nor from whom you buy plants, that ours are their equal, or superior. You cannot get better plants anywhere or at any price. We see to it, all of us, and our help, that **VICTORY PLANTS** are the best plants grown in Michigan. With our knowledge and experience, and these credentials, we each and everyone of us solicit your order for **VICTORY PLANTS**.

We meet competitive prices on any good sized order—
Remember to write us if you have a good sized order.
Many times we can quote lower prices than given in
catalogue, due of course to market conditions and either
large or small order from our customers as each season's
orders run very differently.

How Our Nursery Is Different From Others

Our Nursery is different, yes, we really believe it is. We are all real farmers, the whole family of us; and there are 12 of us; five boys and five girls, and we all know how to work. Boys and girls alike work in the fields of fruit, berries and plants of all kinds. You can understand that we eliminate a great deal of the undesirable help except in the very busy season, and then there are enough of us to see that the work is well done. So the Prestage Nursery is almost a Family Nursery, and your plants are raised by careful hands and eyes that are interested in their work, and it adds value to the plants and stock we send out, and we are anxiously waiting to know how our **VICTORY PLANTS** please you. Write and tell us.

This little salesman came for your
order — Send it now.

The New Washington Strawberry A Masterpiece!

This marvelous new berry was first offered to the public as the PUGET SOUND WONDER but when some Michigan berry people got hold of some from the INTRODUCER, MR. NORDHEIM WHO LIVES NEAR PUYALLOP, WASHINGTON, IT WAS QUITE APTLY CALLED "THE NEW WASHINGTON:" AND IT CERTAINLY IS A MASTERPIECE AMONG STRAWBERRIES. Said by many that have seen it perform in its native haunts to be the BEST AND MOST WONDERFUL STRAWBERRY KNOWN. It is distinctly a new type of berry—in size, color, flavor, productiveness and keeping qualities.

Its origin is indefinite, being accidentally discovered. The berry, and vines are the largest known; the berries being larger than MASTODONS, and the vines grow 12 to 18 inches tall: its yield is marvelous, nearly four quarts of berries being packed from one hill at one picking. Its color is real OXBLOOD RED. THROUGH AND THROUGH, ITS FLAVOR, NEW AND DISTINCT, BUT AS SWEET AS HONEY---and actually you would rather have three of those big WASHINGTON BERRIES THAN A WHOLE POUND CAKE OF HONEY. It keeps so well it is highly probable that it will supersede all varieties now being grown for their SHIPPING AND KEEPING QUALITIES. It is very late, in the East it follows immediately after Gibson and BRANDYWINE, and keeps up bearing until other varieties are gone.

MARVELOUS, MARVELOUS—DID WE SAY—Y-E-S AND TODAY ANYTHING TO BE MARVELOUS MUST BE MORE THAN OUTSTANDING—AND IT IS! WASHINGTON IS WELL WORTH A TRIAL by everyone under all conditions. Our plants come from the original strain of the introducer direct from Washington. See table for Prices.

The New Washington Cherry

We have a Washington strawberry, that is good; now have a new cherry. Like the strawberry, it was first introduced under another name, the Olivet, but it has been suggested to the distributor that he call it the Washington, and the name has taken for two years like fire. Everyone that sees it wants some of the trees. Tree is a very strong and sturdy grower, and very large. Fruit is of the Morello type, very large, thick meated and juicy. It is the largest cherry grown. In fact, a tree loaded looks like plums. The trees will produce about two or three times as much as the average cherry tree. Fruit is fine for eating fresh, canning, shipping or making cherry cider. In fact, someone will write a book on this wonderful cherry. It is bound to revolutionize the cherry industry. Plant a few of these trees and you will never stop to pick the little old fashioned cherries. Cherry pies made from this new cherry are more inviting and delicious than cherry pies usually are. It is a late cherry. If you do not set now, you will in a few years. Set them now and be ahead of the rush. More than ever it is the kind for the yard and garden. The tree is a real ornament.

Price of Trees: 4-6' 2 year. trees 75c ea; 5 trees for \$3.50; 10 for \$6.50; 100 for \$60.00.
